Notes

Introduction of supporting colleagues on Mercedes side
Colleagues are currently getting onboarded but will join a later meeting for introduction.

Follow-Up: Deprecation / Update of QT Creator Guide
Documentation for building with Qt has been updated by Konstantin Blenz and Mercedes. According Merge Request will be placed after the meeting.
The tested and recommended version of Qt has to be clarified among the partners and updated in Qt. Volkswagen and Mercedes will clarify.

Overview and next steps on open Pull Requests
Arun gave an overview on the current Merge Requests and their content. Review and approval will be done by Tuan as soon as the CI builds the MRs correctly. Afterwards, also a hotfix for v0.10 is needed to fix the CI build (will be called v0.10.1).

Teaser for Steering Committee
The Eclipse has requested a program plan for 2023. This will be discussed in the next SC.

Documentation of Requirement Refinement Meetings
List of requirement refinement meetings since last AC meeting:

- 04.08.2022 Synchro meeting on current developments of OpenSCENARIO Engine / API
  Main Branch of OSC Engine has been integrated in for testing purposes in another simulator.
    - This version now contains submodules (Parser, YASE, MantleAPI, …)
    - Existing Scenario Engine integrated dependencies next to the OSC engine
    - Follow up on Dependency management needed
  Release of OSC 1.2 Parser from RA Consulting is planned for beginning of September
- 25.08.2022 Synchro meeting on current developments of OpenSCENARIO Engine / API
- 15.09.2022 Synchro meeting on current developments of OpenSCENARIO Engine / API

If you plan to attend one of the following meetings, contact one of the attendees to forward you the meeting or approach Arun Das.
